INTEGRATION

Blue Planet provides complete turnkey design, specification, and installation of everything related to live production and entertainment including Audio, Video, Lighting, Projection, Special FX and much more.

Blue Planet can design and specify an audiovisual system that adheres to the specifications provided by the client, as well as manage the installation process to ensure the project completes on time and on budget.

From design and installation, to after the sale support including preventative maintenance, we can help bring your vision to life and keep it running at peak performance.

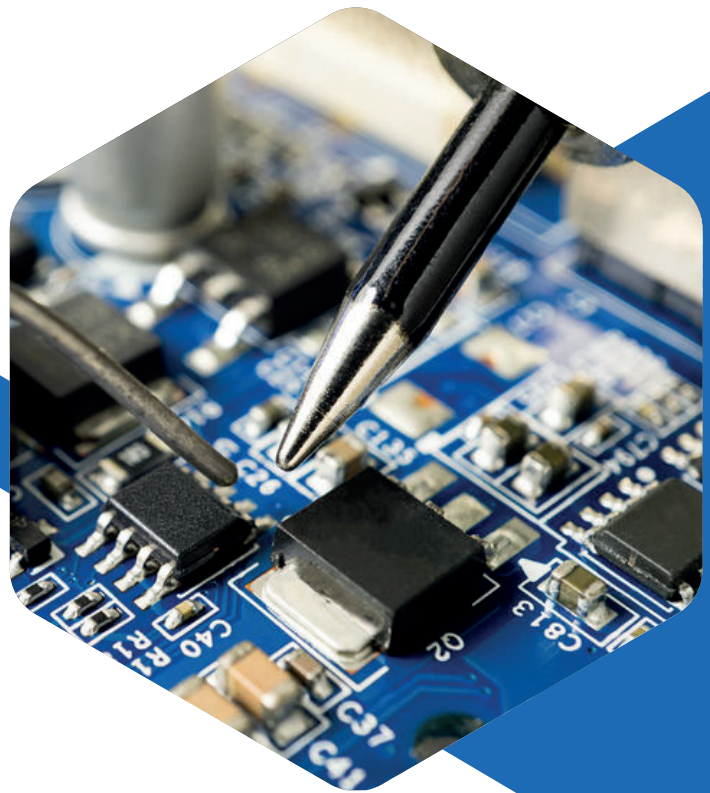

SERVICE AND MAINTENANCE

Blue Planet's service technicians are at the top in the industry. Factory trained and certified, your gear is in the best hands possible, with the fastest turnaround in business.

From major repairs to preventative maintenance, you will receive your gear back in a timely manner, fixed right, the first time.

Blue Planet offers fast turnaround time on all service work performed. Don't sit around wondering when you'll see your gear again. Blue Planet also offers Rush Service for clients needing exceptionally fast or same day work performed on their production gear.

Is handling the maintenance and upkeep of your gear overwhelming you, your company, or your employees? Consider a preventative maintenance or service contract from Blue Planet! We provide full white glove service contracts which include deep discounts on our standard labor rates and parts costs. We will make sure the optics on your fixtures are pristine and the fans and filters on all your gear are monitored and kept clean. Extend the life of your gear while minimizing downtime and show issues with a Blue Planet Maintenance Contract.

OUR WORK

Blue Planet is proud to have been involved with the projects in the gallery below. From simple boxed sales to complete design and integration, Blue Planet is quickly becoming a client favorite due to our world class customer support.

ADDITIONAL SERVICES

Blue Planet provides an array of additional services including console programming, product and system training, gear demos as well as same day local deliveries.

PROGRAMMING

Looking for programming or touch ups? Blue Planet can provide programming for your new production as well as reprogramming if you are needing to refresh the look and flow of your current show. We can also train your tech to operate the console and make minor touch ups if needed.

PRODUCT TRAINING

Blue Planet can train you or your staff on the use of any production gear including the correct Preventative Maintenance procedures, repair tips and even provide you with documents to track and maintain your equipment.

DEMO GEAR

If you are considering a new purchase on gear you haven't used in the past, consider getting a demo first. Blue Planet can provide demos on most entertainment production gear for you to test and look at within your own venue. There is no better way to verify your choice of gear than with a demo from Blue Planet.

CONTACT BLUE PLANET

Blue Planet offers complete AVL Sales, Design, Integration, Service and more. We strive to provide the most knowledgeable staff and state of the art gear that you have come to expect in this industry. Contact us now for a quote on your AVL needs.
